

INTERNATIONAL PERFORMANCE DESTINATIONS:

Bahamas

Bahamas performance trips offer a unique experience filled with music and culture. Perform at the Ministry of Education and Culture or St. John's Jubilee Cathedral. Perform with adjudicated groups and experience clinics with Nationally recognized Music Educators. Your group can even take their performance on the seas with an iconic Independence of the Seas cruise ship. MTC will work with you to make your group's custom Bahamas performance trip educational and unforgettable. Your performers can do a Junkanoo and Rake and Scrape workshop in Nassau. Junkanoo is without a doubt the most popular style of music you'll hear in the Bahamas, because it's been around for hundreds of years and is a vital part of the heritage of the islands. Some say the word derives from the name of a freed slave, John Canoe, but others insist that it comes from the word "junk" – the discarded materials and cans used to create instruments for the first Junkanoo celebrations in the 18th century.
