

U.S. PERFORMANCE DESTINATIONS:

Williamsburg

Williamsburg performance trips offer a unique experience for your group. Schedule your musical group to take Italy Stage at Busch Gardens with the SoundWaves Program or with the a Music in the Parks Festival. Or participate in an educational experience with a workshop at College of William and Mary in Williamsburg. Your group will take a part of The Virginia Arts Festival. With plenty of educational and memorable experiences, your student will always remember an MTC Williamsburg performance trip. Visit the birthplace of our nation with Virginia's historic three cities, the marked significant events in the tale of colonial America. Jamestown, Williamsburg and Yorktown reveal the first English settlement and the battle that secured independence for America. In 1606, a group known as the Virginia Company went on a mission to establish an English settlement in the Chesapeake region of the New World, establishing the first permanent English settlement in America. This is where Patrick Henry, Thomas Jefferson and George Washington pursued lives of public service and the belief of a free and independent country began. The Declaration of Independence signed in 1776 eventually led to a revolution ending King George III's oppression over the 13 original colonies and fulfilling the promise of July 4, 1776. With multitudes of performance venues, your students will be embraced by the history of the country while making music together.
